

SIX WAYS TO CREATE THE ILLUSION OF SPACE

Space: Moonlit Pumpkin Patch

Review the 6 ways to create the illusion of space.

On a black sheet of paper, use a white colored pencil to draw a pumpkin patch. Make sure you use the 6 illusions of space by making the pumpkins overlap one another and get smaller as they move up the page.

Add extras in the background such as a fence, tree, scarecrow and especially a moon.

Use chalk pastels to add color. Use darker colors to add shadows oppositely from the moon.

Use white chalk at the end to for highlights.

Spray with hairspray or fixative to keep pastel from smearing.

Sign and hang your work.
